United Way of the Mohawk Valley Impact Stories

Have you ever wondered exactly how your contributions help people in the Mohawk Valley? These are just some examples of how your donations make a difference in the lives of our communities.

Finding Emergency Shelter in a Crisis

- ❖ *When a fire destroyed a client’s home, she and her two young children were left with nowhere to go. Overwhelmed and unsure of what to do, she called 2-1-1 Mid-York. A caring specialist quickly connected her with local emergency shelters and programs that provided clothing, meals, and additional financial assistance. Within hours, she and her children were safe in temporary housing. Client stated, “I didn’t know where to start, but 2-1-1 guided me every step of the way.”*

Connecting Seniors to Vital Services

- ❖ *An elderly client living alone had been struggling to afford her medication and groceries. A friend recommended she call 2-1-1 Mid-York. The specialist listened to her situation and connected her with a local food pantry, a prescription assistance program, and a senior center that offered free transportation. Client stated, “One call changed everything, I’m no longer choosing between food and medicine.”*

Helping Families Navigate a Natural Disaster

- ❖ *When a tornado tore through Oneida County, a client and her family’s home was severely damaged, leaving them without power, shelter, or essential supplies. Unsure where to turn, they called 2-1-1 Mid-York. The disaster trained specialists quickly connected them with a nearby center, clean-up resources, and organizations offering financial aid for home repairs. Client stated, “2-1-1 was a lifeline during the tornado, they made sure we had shelter, food, and the support we needed to start rebuilding our lives.”*

Mental Health Support for a College Student

- ❖ *After experiencing anxiety and depression, a client didn’t know where to turn for help. She heard about 2-1-1 Mid-York and made the call. The specialist connected her with a free counseling program on campus and a 24/7 crisis text line. Client stated, “That call made me feel seen and supported.”*

Supporting Parents of Children with Special Needs

❖

- ❖ *A client with a special needs child was overwhelmed by the cost and complexity of finding support. A call to 2-1-1 Mid-York changed everything. The specialists connected them with early intervention services, financial aid for therapy, and a local parent support group. Clients stated, “We felt lost before calling 2-1-1. Now we have a network of resources and people who understand.”*

Assisting a Veteran in Need

- ❖ *A local veteran had fallen behind on rent and was at risk of eviction. He called 2-1-1 Mid-York and was connected to a program offering rental assistance specifically for veterans. The specialist also referred him to a career center that helped him update his resume and find a new job. Client stated, “I didn’t think anyone would care about my situation, but 2-1-1 proved me wrong.”*

Breaking Barriers to Healthcare Access:

- ❖ *A single mother in Oneida County faced a tough choice between paying for transportation or skipping her child’s doctor appointment. Without a car and limited public transit options, she was referred to the Ride United Transportation program by a local health clinic. Using the concierge service, she scheduled a Lyft ride to the appointment. Not only was her child able to receive needed medical care, but she also discovered additional health resources through United Way’s network. She shared “This program saved me from missing a critical appointment and gave me peace of mind.”*

Empowering Job Seekers:

- ❖ *A resident of Herkimer County had been unemployed for months due to a lack of reliable transportation. When he secured an interview for a promising position, he worried about how he’d get there. His case manager connected him to the Ride United program. With a Lyft ride provided through the program, he not only attended the interview but landed the job. Client stated, “I’ve started my new role, and I can finally provide for my family again.”*

Providing Independence for Seniors:

- ❖ *A 72-year-old widow in Madison County felt isolated without transportation to her weekly grocery store trips and medical appointments. Her senior center introduced her to Ride United. With scheduled rides through the concierge service, she regained her independence. Client stated, “I can take care of myself again without relying on my neighbors for every little thing.”*

Supporting Students and Education:

- ❖ *A first-year college student in Oneida County, struggled to balance her studies while working a part-time job to make ends meet. When her car broke down, she feared missing important classes and work shifts. A counselor at her college referred her to Ride United, which provided Lyft rides to campus and work until her car was repaired. Client stated, “I was so close to giving up, but this program kept me on track.”*

Access to Essential Services:

- ❖ *An individual experiencing homelessness in Oneida County, had been homeless for over a year, sleeping in shelters and on the streets. Despite his determination to turn his life around, he struggled to access the resources he needed. When he learned about a local housing program that could help him secure an apartment, he was excited, but he faced a major obstacle, he had no way to get to his intake appointment. A case worker referred him to the Ride United Transportation program. Through our service he was able to receive a Lyft ride to the housing agency. During his appointment he was approved for housing. Within weeks he was able to receive rides to sign off on a lease. Client stated, “The Lyft rides were a turning point for me. Without it I wouldn’t have been able to get into the program or find a place to live. I am now able to rebuild my life and look forward to a brighter future.”*
